

Clark Forklift Parts

Performing worldwide, there are now 350,000 Clark forklifts and lift vehicles in operation, with more than 250,000 of those operating in North America. Clark has five main lines of lift trucks across the world, making it one of the most expansive organizations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties. Clark Totalift has 20 distinctive models of lift trucks, with parts covering more than 120,000 particular items for all of its automated equipment. Your local Clark Seller is your complete source for availability of all your components needs offered by Clark Totalift. Clark features a phenomenal Parts Supply team. The items warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing companies. Driven to offer the highest level of value and service to our customers, Clark remains on the cutting edge when it comes to improving output and benefiting performance. Worldwide, Clark has one of the most outstanding dealer support networks. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the materials handling industry. By pioneering the operator restraint system protection feature, Clark proudly remains a leader of modernization in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is currently a customary feature on every forklift. Clark has a unyielding goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production plants. Also, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any number of environmental limitations, thus placing them in a dominant market position. Clark has chosen the structure of "Lean Manufacturing" at all of its assembly plants for the reason that this system is extremely economical and permits minimal use of resources. Established to guarantee maximum efficiency, this system is designed to find and acknowledge the most efficient methods for manufacturing facility stewardship. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies. Clark's product engineers and suppliers communicate together to upgrade the efficiency and brilliance of their merchandise while minimizing expenses. The contemporary value engineering program combines innovative product improvement and offers superior customer support and service within the industry.
