

Lull Telehandler Parts

Lull telehandlers have been providing precision load placement ever since 1959. Whether the work involves transferring loads, positioning heavy steel or landing loads on scaffoldings, utilizing a Lull telehandler will help make the work go faster and easier. These units are complete together with the patented Stabil-Trak stability system to ensure operator confidence. The horizontal placement system by Lull is able to provide eighty inches of boom travel for precision placement capabilities. There are even several optional Lull attachments for their telehandlers so as to help finish whatever job.
